- Authentication: Google, Facebook, Email, Phone Number, Truecaller
- ExoPlayer for video playback
- Push Notifications
- Google Map, Google Map API
- UI/UX design
- API Integration
- Publishing application on Google Play Store
- Cross-platform app development using Flutter (iOS, Android, Web)
- Testing, debugging and Deployment
- Team collaboration and communication
- Problem-solving and critical thinking
- Agile Collaboration

Language

- English
- Hindi

Summary

Experienced Mobile App Developer with 5+ years' experience. Capable of building apps from scratch with a focus on user experience and performance. Skilled in Java, Kotlin, Dart, and Firebase.

Professional Experience

Mobile/Web App Developer (Mar 2021 - Jun 2025)

Xornor Technologies Pvt. Ltd., D151, First Floor,Phase-8, Sahibzada Ajit Singh Nagar, Punjab 160055

Android Developer (Jul 2018 - Jan 2021)

Logimetrix Techsolutions Pvt. Ltd., 3/23, Vikaskhand 3, Gomti Nagar, Lucknow, Uttar Pradesh 226010

Projects

Yuno Learning - IELTS Preparation:
- An IELTS-focused educational app offering structured courses, practice tests, and interactive learning tools. Developed using Flutter for cross-platform support, it features Firebase authentication, video lessons, performance tracking, and in-app purchases for premium content.

Yuno Learning – Skill & Exam Prep:
- A comprehensive learning platform covering a wide range of competitive exams and skill-based courses. Built with Flutter, the app includes personalized learning paths, video tutorials, quizzes, document access, and payment gateway integrations for course purchases.

White Level Web App:
- A web-based platform offering personalized live classes in small groups, led by top-rated instructors. Built with Flutter for cross-platform compatibility, it integrates features like real-time video sessions, interactive study materials, and secure user authentication, providing an engaging and effective learning experience.

NDDBDS-AIT – Animal Artificial Insemination Tracking App
- An Android application designed to assist Animal Artificial Insemination Technicians (AITs) in recording and managing AI procedures. Developed using native Android technologies, the app features data entry forms, record management, and reporting tools, enhancing the efficiency and accuracy of artificial insemination tracking.

Achievements

- Launched over five cross-platform applications on both the Play Store and App Store, attracting more than 10,000 users.
- Enhanced app performance by 30% through code optimization and reduced load times.
- Spearheaded the migration of a legacy Android codebase to Flutter, boosting development speed by 40%.
- Successfully deployed multiple web applications utilizing flavors in Flutter.

Education

Jul 2014- Jun 2018
Babu Banarasi Das Northern India Institute of Technology Lucknow

Bachelor of Technology (Information Technology)
